Assembleia da República, 25 de outubro de 2017

Oportunidades de financiamento

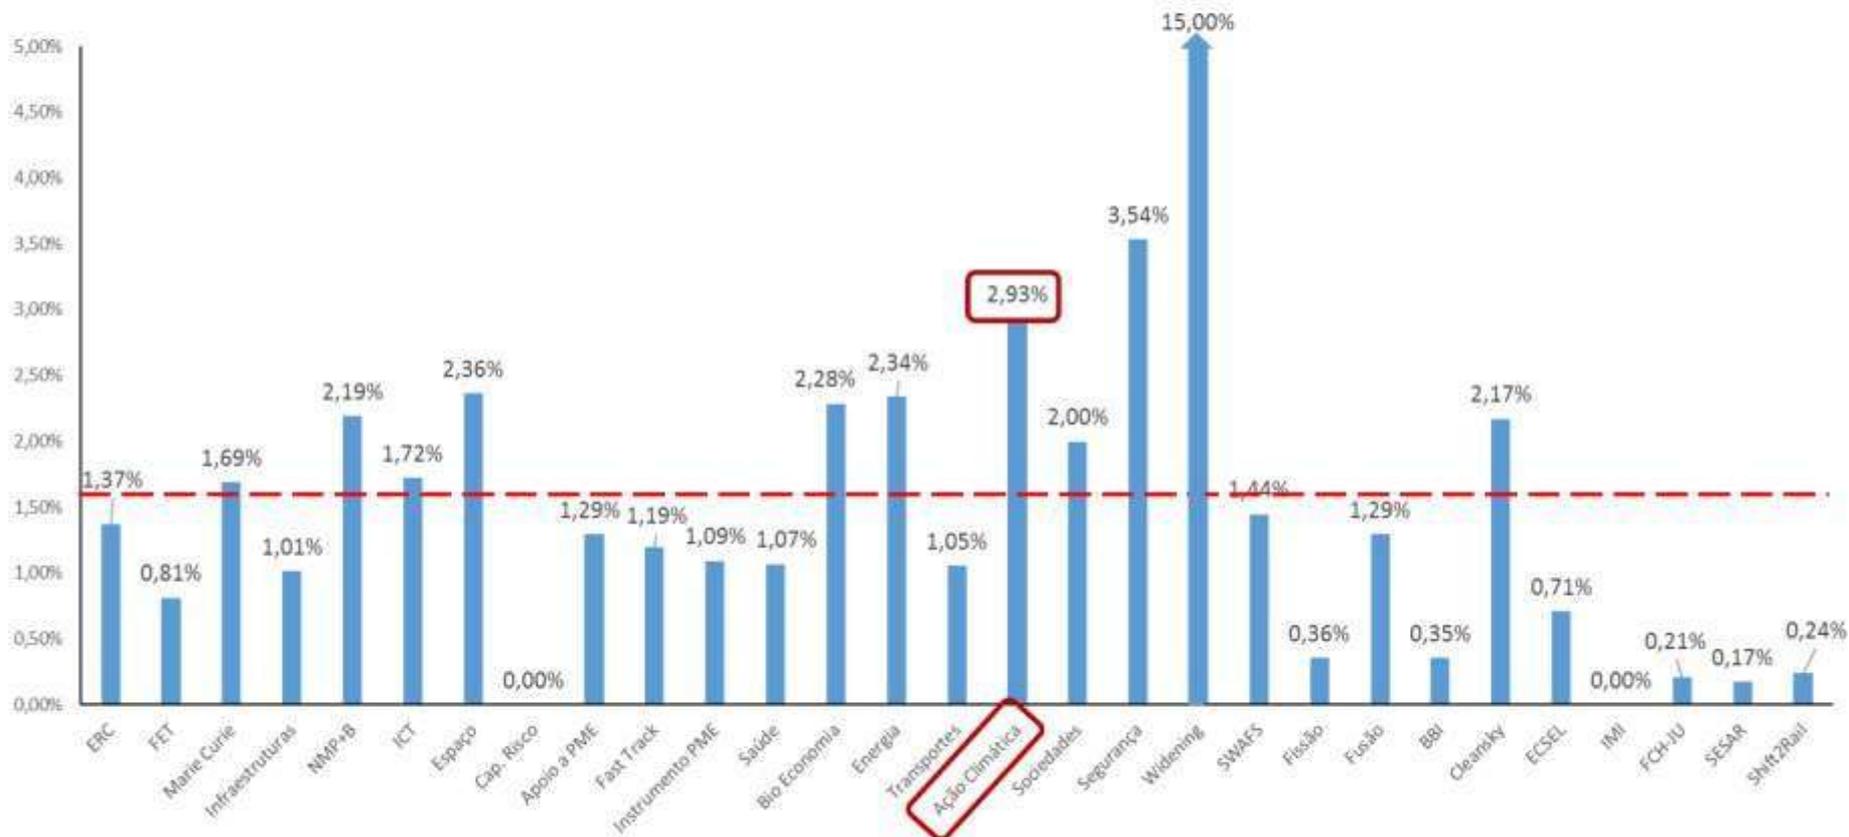

- União Europeia**
- Serviços Climáticos**
- Eventos meteorológicos e climáticos extremos**

Horizonte 2020 >> Participação nacional no concurso 2014 – 2015 - 2016 (apenas com resultados apurados para alguns temas)

- Propostas submetidas por PT: 5701
- Projetos financiados com PT: 750
- Projetos coordenados por PT: 194
- Orçamento PT: **337,15 M€ → 1,66%**
- **Taxa sucesso PT: 13,2%** (UE – 13,4%)

Horizonte 2020 >> Participação nacional no concurso 2014 – 2015 - 2016 (apenas com resultados apurados para alguns temas)

Participação Nacional – DS Ação Climática 2014-2015-2016 (*single-stage*)

- Propostas: 173
- Projetos aprovados: **47**
- **Projetos coordenados: 3**
 - **BINGO → LNEC** **PLACARD → FCUL**
 - **NextGEOSS → DEIMOS**
 - **ERA-MIN2 → FCT**
- Financiamento: **21,9 M€ (2,9%)**
- **Taxa sucesso PT: 27,2% (UE – 20,4%)**

Projetos financiados ao nível EUROPEU no concurso 2014, 2015 e 2016 (*one-stage*) do Desafio Societal Ação Climática

Strategic Priorities

- ***Climate Action after COP21***
- ***Circular Economy***
- ***Resilient and innovative cities and rural areas***
- ***The water-food-and energy nexus***
- ***Enabling systemic transformation***

European Network of **34 institutions** from **23 countries** committed to fund and share knowledge on Climate Adaptation research.

Project Name (FP7): Climate Impact Research & Response Coordination for a Larger Europe

EU Financial Contribution: € 2 million

Duration: 48 months (01.05.2010 - 30.04.2014)

Coordination: FFCUL, Portugal

EU Project Officer: Wolfram Schrimpf, DG
RTD

Participants:

Research 'owners' (typically ministries or regional authorities)

Research 'managers' (typically research councils or other agencies)

Connecting Climate Knowledge for Europe

The Joint Programming Initiative "Connecting Climate Knowledge for Europe" (JPI Climate) is a pan-European intergovernmental initiative gathering **European countries** to jointly coordinate climate research and fund new transnational research initiatives that provide useful climate knowledge and services for post-COP21 Climate Action.

JPI Climate connects scientific disciplines, enables cross-border research and increases the science-practice interaction. JPI Climate contributes to the overall objective of developing a **European Research Area** and to underpin the European efforts in tackling the societal challenge of climate change.

News

- **Results of the first step of the ERA4CS Joint Call**

The 2 topics of the call closed on 30 June and 15 July. In total, 66 pre-proposals have been submitted and they will be now evaluated. Successful submissions will be invited soon for the second step.

JPI Climate Central Secretariat, Tuesday 30 August 2016

WHAT ARE CLIMATE SERVICES?

ERA4CS uses the concept in a broad sense, namely user-driven development, translation and transfer of climate knowledge, including knowledge for understanding the climate, climate change and its impacts, as well as guidance in its use to researchers and decision-makers in policy and business.

The Sendai Framework for Disaster Risk Reduction (2015-2030)

- 4 priorities for action
- 7 measurable targets

COP21

Paris Agreement

SDG 2015-2030

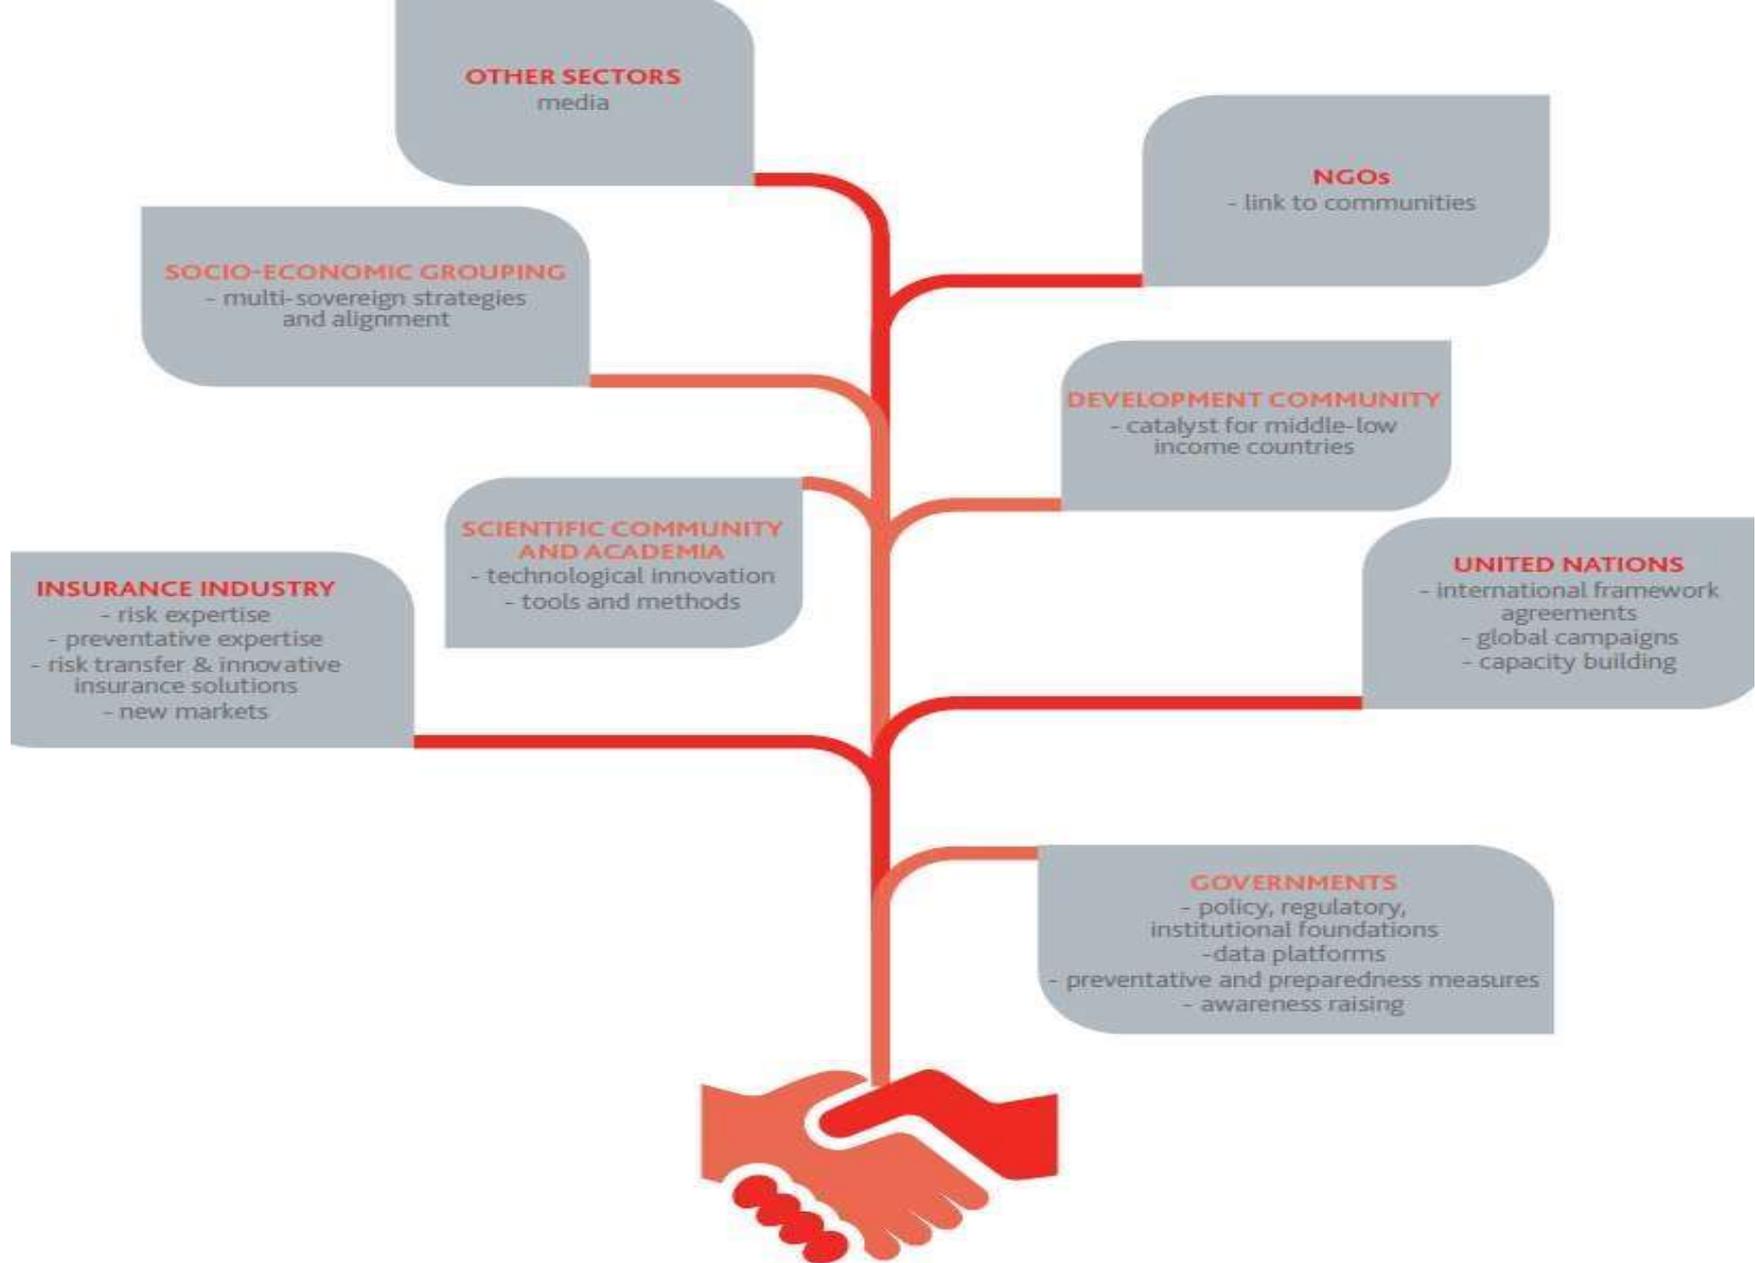

United Nations
Sustainable Development
Goals 2015-2030

Goal 17: Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development

Achieving the ambitious targets of the 2030 Agenda requires a revitalized and enhanced global partnership that brings together Governments, civil society, the private sector, the United Nations system and other actors, mobilizing all available resources. Meeting implementation targets, including the raising of necessary funds, is key to realizing the Agenda, as is the full implementation of the Addis Ababa Action Agenda. Increasing support to developing countries, in particular the least developed countries, landlocked developing countries and small island developing States, is fundamental to equitable progress for all.

Principal conclusão dos três Acordos Internacionais relativamente aos desastres naturais e em especial aos relacionados com o clima cuja frequência e intensidade estão a aumentar

Governments, the insurance industry and other stakeholders need to leverage their strengths and initiatives to address the resilience challenge
